MAXHUB

BM21

Bluetooth Speakerphone for Teleconference

MAXHUB SPEAKERPHONE

The MAXHUB BM21 360° Bluetooth speakerphone is a well-rounded performer that supports your every important conference call anytime, anywhere. Its voice pickup range ensures you are heard clearly in your flexible seats. The built-in high-performance dynamic speakers bring you a crystal clear voice experience.

Omnidirectional[1] Making Your Voice Heard

A MAXHUB Speakerphone supports 360-degree omnidirectional audio pickup to receive the voice from every seat in a meeting room.

Wired & Wireless Charging[4]

Supports 8-hour of Playtime on a single charge

8 Hours[5]
Durable battery life

USB Cable & Charging Pad[4]
Either way, charing could be easy

1.To support 360°omnidirectional audio pickup, MAXHUB Speakerphone needs to be unobstructed.
2.Based on tests results from MAXHUB Lab, test environment is within a meeting room with reverberation time less than 1s, voice being recognisable identified as effective audio pick up.
3.To achieve ideal results, MAXHUB recommends using MAXHUB USB cables and MAXHUB audio cables, which are boxed together with MAXHUB Speakerphones.
4.Wireless charging is optional, and an extra wireless charger is required for this function.
5.Based on tests results from MAXHUB Lab, the actual usage time depends on the environment and battery consumption.

Specification
